**Homeland Projection in collaboration with Damer House Gallery and Barcelona Loop
Festival 2026**

*'Worrier' 2022, Patricia Hurl
Oil on Canvas*

The catalyst for the ongoing Warrior series was the treatment of women in media coverage both internationally and closer to home. Creating helmets as props Hurl set about producing a series of portraits where her face is partially obscured by the helmet, but the eyes convey a tremendous strength. Hurl portrays women as warriors; mothers, sisters, friends, all affected by horrific acts of violence but often powerless to ease the suffering of loved ones.
